

# Mikro-Myco

## Mycorrhizal Superpack

**Best for:**  
Root Growth  
Drought Tolerance  
Nutrients Uptake  
Higher Yield Rate

Member of  
AMERICAN  
SOCIETY FOR  
MICROBIOLOGY

Contains more than 24 millions of Endo/Ecto mycorrhizae per 4 oz, with ample inclusion of rhizobacteria and beneficial fungi

net weight: 4 oz (113g)

## **Mikro-Myc** contains:

4 species Endomycorrhizae .....	260 CFU / g
Glomus Intraradices, Glomus Mosseae Glomus Aggregatum, Glomus Etunicatum	
7 species Ectomycorrhizae .....	218,000 CFU / g
Rhizopogon Villosulus, Rhizopogon Luteolus Rhizopogon Amylopogon, Rhizopogon Fulvigleba Pisolithus Tinctorius, Scleroderma Cepa, Scleroderma Citrinum	
4 species Rhizobacteria .....	4.0 x 10 <sup>8</sup> CFU / g
Bacillus licheniformis, Bacillus pumilis Bacillus subtilis, Bacillus megaterium	
3 species Beneficial Fungi .....	7.5 x 10 <sup>5</sup> CFU / g
Trichoderma harzianum, Trichoderma viride Trichoderma longibrachiatum	

- Application:** Water Suspension – Mix 1 tsp (2.5g) into 1 gal of distilled or tap water, and drench the root area of plants/crops.  
Dry Application – Apply 1 tsp (2.5g) ~ 1 tbsp (5.0g) to root system while planting/transplanting. Make sure the powder comes into direct contact with the roots.
- Storage:** Please store in a cool and dry area. Avoid direct sunlight.
- Caution:** Keep out of reach of children and animals.
